

**DON'T MISS THIS PROGRAM LINEUP**

# SMALL GRAINS UPDATE MEETINGS

**JANUARY 16-20, 2012**

A program of the Minnesota Wheat Growers, Minnesota Wheat Council, U of M Extension and Small Grains Institute

## THE PROGRAM

### **2011 Wheat Variety Trials Results**

*Dr. Jochum Wiersma, Small Grains Specialist, U of M Extension* will present the results of the 2011 variety trials and provide his insight into the strengths and weaknesses of each variety. He will share his thoughts on which varieties will work best in your region and highlight new varieties for 2012.

### **Marketing Your Spring Wheat Crop - Considering Basis and Protein Risks**

*Dr. Frayne Olson, NDSU Extension Crop Economist/Marketing Specialist* will discuss factors important to spring wheat prices, basis movement, and protein premiums/discounts. He will also discuss the best tools to manage these risks.

### **Baking Bread with Different Protein Quantities and Qualities**

*Dr. Senay Simsek, NDSU Assistant Professor, Wheat Quality Research* will discuss the art and science of baking bread, which starts with wheat and flour. Dr. Simsek will discuss how wheat varieties, protein and other quality factors affect bakers and the bread they make.

### **Managing Weeds in Wheat, Glyphosate Resistance and Drift**

*Dr. Bev Durgan, Dean of U of M Extension and Weed Scientist* will present the latest results of her wheat herbicide research; discuss herbicide resistance management and the impact of Glyphosate drift on wheat production.

**Minnesota Wheat Research and Promotion Council Elections: Vote for Wheat Council board members in Areas 1 and 2 which will take place at these meetings.**

**FREE to attend. Call 800-242-6118 ext. 13 for more information.**
